01

Auto Burn Mechanism

The dead wallet actually holds 47% + of the supply, which states that out of 5% of redistribution, 43%+ of it shall be distributed to the dead wallet on each transaction.

02

Auto reflections

8% fee from each transaction made is redistributed to the token holders. This, in turn, means that you can earn more coins by keeping them in the wallet.

03

Locked liquidity

The majority of these initial mango man tokens are locked or some are burned.

04

Charity wallet

We have assigned dedicated charity wallet which receives redistributions which are used to support the charity partners.
